★★★★★

I have a 140 year old shingle style house with a facade that is complex. The job is so difficult that i couldn't find many contractors that would like to take the job. Needles to say Premier and the foreman Orlando took on the project an completed the job perfectly. The quality and professionalism on my job could not be better.

The folks at Premier (Mike! Oscar! what a great team!) were fast, efficient, organized and reliable. They were responsive and helpful at every turn of the project. We LOVE the transformation they did of our home. The quality of the detailing and finish work are top notch.

My experience working with the whole crew at Premier Building & Renovation, including Adam and Herbert, who have been our primary contacts, has been professional at a high level, and they answered any questions we had. We couldn't be happier with the results. It has been excellent and professional.

EXCELLENT from beginning to completion! Materials were delivered on time. ALL the workers and their working pacing was very good. The finished job is outstanding! More importantly, Robert Catalfomo was the BEST! Everything he said that needed to be done--was done---including all the follow-ups and small details. He kept us updated with the work scheduling. Keep up the good work.

The entire team at Premier Building & Renovations have been professional and trusted advisors who have assisted us in every step of the way of our renovation project. They have made sure that we were not only able to build out our project as we imagined it, but they also helped advise us on items we may have missed or not considered to make our project even better than we imagined it.

Premier Building has done an exceptional job on my house. Not only did they keep the budget at plan, but also often worked 6 days a week to maintain their job completion forecast on track. Our Project Manager, Mike Krug, managed the project as a professional and most importantly to me, communicated very well (ie: always answered his phone when I called him). He also often made suggestions that improved the outcome of the project. The communication with the PB office involving financial transactions and change orders has also been clearly communicated and they were able to avoid any unexpected surprises. When you are building a home for your family, budget; timing and quality are critical. Premier Building focused closely on these three factors, which is the reason they get 5 stars from me and my family.

Top tier company. They run their company with customer service, craftsmanship, and finishing the job in a timely manner as their priority. Most contractors DO NOT run their jobs or their business in general like premier does.

We hired Premier Building to install a new roof and James Hardie siding on our home. The entire team at Premier was customer focused and a pleasure to work with from the start. The crew was prompt, professional and hard working. Our house looks great, our only regret is that we didn't do it years ago. We would highly recommend Premier Building.

We had a great experience using Premier Building & Renovation Corp for our exterior renovation project. Premier is a professional company, well managed, and customer focused. The onsite team were experienced and diligent workers, highly skilled who delivered quality workmanship. We are very pleased with the results. I highly recommend Premier Building for customers considering exterior renovations using James Hardie clapboard siding and trim.

Adam and his team exceeded our expectations on our recent exterior renovation. There was a level of organization and support that began with our initial estimate and continued until the last piece of the project was complete. The work crew was on time, worked through tough weather conditions at times, and always cleaned up at the end of the day. Adam and the crew were highly knowledgeable about the entire process as well as the specific materials we had chosen. He was never more than a phone call or a text away when we had a question, and always answered us quickly and with great patience. We will be repeat customers!
