REVIEW

Garcia
Niceville, FL
Jan 13, 2015

They did a great job installing the hardware and on time. They were very helpful at all times. However, one optimizer was bad. I know they are busy and are in the business of making money and troubleshooting a problem can take a long time but the problem needs to be resolved a lot sooner. Showed up to the site to troubleshoot with no help, took 10 months. I did a lot of research and troubleshooting my self to help out. That took a lot of my time. Despite everything it took to solve the optimizer one thing can be said. They made sure the problem was fixed for me. Even though it was frustrating for them they were positive. Communication about the problem was good and we worked together to get the problem solved. They never left me hanging. Great customer service.

We chose them because of the bid that they gave and the style of mounting that they were going to do, and an overall good feeling with the company.

All of the MSS staff we interacted with performed superbly.

COMMENT

Additional Comment
Jul 16, 2014

My work has taken us to be in New York for most of the past four years, the time when we engaged MSS to install, make operational, and then coordinate with DTE and the Solar Currents Program. MSS was able to achieve this despite the fact that 90+% of the time we were not here. I consider that a real accomplishment.

The final product surpassed my expectations. The schedule was met, and the overall quality of the project was very good. The finished product was as described, and I couldn't recommend them any higher.

I was perfectly happy with the speed and professionalism of the installation crew. So far I haven't had any problems with the system itself. It seems to be doing what it is advertised to do.

It was a fairly hassle-free process and went smoothly from start to finish. The panels look neat on the house and they're all-around rather fun.

Thanks to Michigan Solar Solutions my quality of life has improved. I'm saving loads of money every day that I would otherwise be throwing out the door to the energy company. So with that being said I want to say a BIG THANK YOU!

To not include them all would be a insult. Mark, Don and Debbie have been an incredible resource in my life. They all love what their doing, their very knowledgeable and complement each other very well. I have had my most Contact with Debbie Vercnocke. Her customer service skills are second to none. I sleep easy at night knowing that if anything should arise she will handle it confidently.

My experience with Michigan Solar Solutions has been one that you can take to the bank. This company provides not just a service but you will develop a personnel relationship with all of them. When they installed our system at our home they made us feel like we became part of their family. Never at any time did I have reservations about using this company. They stand behind everything they say and go over and beyond your expectations. I recommend using this company for their professionalism, knowledge and personalized customer service.

Comment from Michigan Solar Solutions

★★★★★

From start to finish, the job was great. The people were great. The company produced and did everything they said they would do. From the person that put the panel up, to the roofer, to the project manager, it was a wonderful experience. If I had to do it all over again I would. I've highly recommended Independent Energy Solutions to friends and family. I'm very happy with the product. My wife and I are happy we went solar and picked the right company.
