Our house looks very nice, but the timeline and way in which this job was organized was very frustrating. The job took from August of 2014 to February of 2015 with a good portion of time with my house exposed to weather. I wished it had been closer to the 2 weeks or so that I was told it would take.

Please avoid this contractor. He makes promises he cannot keep. His contractors are not factory certified as promised. He does not go to the job site every day as promised. He does not fix problems, you may find after final payment. Please be aware of the contract that he has an arbitration clause, which he needs to avoid being sued. Generally, the contractor appears to be in over his head. He does more work than he needs to for such a small company. He also uses subcontractors for certain aspects of his work, like gutters, that he appears to find on Craigslist or other sites.

Had to finance the project myself. Poor communication. Job was left unfinished for over two weeks because proper planning had not been done. MIA on the job site. Subcontracted all of the work. Never bothered to come by to pick up the yard sign out of my yard. Had to ask numerous times for an actual written invoice to document all of the payments that I had made. Very sketchy business practice. Would not recommend.
