I could not have asked for better service. From the first discussion with Gary Teicheira to the day the job was completed, they were professional, caring and beyond what I could have asked for from a company and their employees. I would not hesitate for one moment to recommend them!

They have done 2 projects for us and we're happy with both. Kitchen remodel has gotten rave reviews from friends and family and our new patio meets all our expectations. Easy to work with, listened to our concerns and questions, arrived on time and completed the projects as promised.

We were very pleased with the performance and the results on our major remodeling project of new siding and windows. The visit to see the scope of work was set up very quickly, and we were able to ask a lot of questions. The quote came in quickly and that was also what we had to pay in the end. The team worked very quickly, was always available for questions, and cleaned up nicely at the end of every work day. We can only recommend them for your project.

I was super pleased with the whole thing, but then I'm always happy when Costco is involved.

REVIEW

Sep 07, 2018

When we first considered to update our Kitchen Counters, we immediately thought of CostCo. I call was made to CostCo and in less that 2-hours I received a callback from ADH. Withing 2-days, we met with a sales professional from ADH and we were on the schedule. As with any major project, we did encounter a couple of speed-bumps; however, ADH Staff and Team Members did an excellent job in helping to resolve each and every issue.

Sep 06, 2018

Quality of the work, communication with the crews that do the work, price point is fair and competitive, and I really like that they do all the work, not using any outside contractors.

★★★★★

This is the second project that we did with ADH. We returned because of our satisfaction with their remodeling of our kitchen. This project was a remodel of our patio to include new cement, covered patio and electrical work. John was very helpful in getting us basic knowledge of what was needed. The cement crew did a fantastic job in both the removal of the old concrete and the pouring and finishing of the new stamped concrete. Each day they arrived on time and cleaned up before leaving. Sergey and the patio cover crew were equally timely on their part of the project. They knew we were leaving for a vacation, so they moved the schedule up to make sure it was completed before we left, finishing on a Saturday to accomplish the task. We are spending many evenings dining on our new patio and enjoying being able to withstand the Sacramento heat. Thanks for a job well done.
