I have been dealing with Aqua Pool & Spa for many years and have always received excellent service. Whenever I have been in a jam, whether it be my heater not working right before a pool party or some other issue, they have always been there to fix the problem or walk me thru fixing it myself. I highly recommend them!!!

I have used them for years and they are excellent. Steve, my pool technician is the best. They provide weekly service to my pool and spa and worth every dollar I pay. Crystal clear water, no heavy chlorine, well maintained equipment so the pool is always ready for family and friends.

I have been using Aqua Pool and Spas for many years. I used to take care of my pool by myself and started using them after a fungus attacked my pool. Since I have used Aqua, my pool is crystal clear all summer with no issues. I have weekly service for my pool and spa and use them to open and close the pool. My pool tech, Steve, is the best and I continue to request that he services my pool. Steve is thorough, friendly and pet friendly! I have had a number of repairs over the years as well and Mike is prompt with getting his team out to service the pool. The quality of service is exceptional and well worth the money.
