I was very pleased with their design work, with the quality of their work overall, and with their professionalism. I would certainly recommend Artisan Kitchens and Baths to others.

GUILDMEMBER SINCE 2014

We were drawn to Artisan Kitchens first by the quality of the products they carry. Our laundry room project was our fourth purchase there and each time we were thoroughly impressed by the staff, all extremely helpful in addressing our needs with absolutely no "sales pressure". Jeff helped us select an ASKO washer/dryer combination and Jennifer designed and selected the rest - beautiful, high quality cabinets, quartz counter top, and a sink/faucet combination - all color and design coordinated. We turned the least attractive room in our home (which is also an entrance way) into an "eye-popping" room that draws accolades from anyone that sees it.

We have surveyed customers on behalf of Artisan Kitchens and Baths in Buffalo, NY; Tonawanda, NY; East Amherst, NY; Alden, NY; Kenmore, NY; Elma, NY; Lackawanna, NY; Lewiston, NY; Eden, NY; Amherst, NY; and 9 other cities in Ontario and New York.

Only use Artisan if you get an experienced designer. Otherwise, you will be arguing on the phone and be dealing with problems throughout the process. Don't make the same mistake I did - make sure you get an experienced designer that knows how to measure.
