A great company to work with. Our consultant and installer were very professional and knowledgeable about their jobs. We had a tub to shower conversion and now my little bathroom looks beautiful.

I had a great experience with Bath Planet installing a walk-in tub for my 81 yr old mom. They were always on time and never late. They explained the whole process and found problems that needed to be fixed prior to installing the tub. We were thankful they let us know so it could be fixed first. They did a wonderful job installing the tub and explaining how everything worked. My mom is now able to take a bath and won't be tripping over the tub. The tub itself is high quality and the walls will be easy to clean. I wouldn't hesitate to recommend them. Her bathroom looks wonderful and she is very happy.

Bath Planet was a winning choice from 'go'. The in-house estimate went smoothly, and we arrived at a great solution. The timing worked out so that all materials were available in one visit, even though initially the shower door wasn't supposed to arrive in time. The installers were punctual, professional and great to work with. I am very proud of the result. I apparently was the first to ask for LED lights to be installed in the overhead, but they brought the perfect product and I highly recommend others to have them installed, too. The job was a little over my budget, but I definitely got more than I hoped for. They were very careful to not damage anything in the house during the installation and did an excellent job of keeping things clean during the demolition and installation phases. I highly recommend them. PS: The S curved shower door is icing on the cake!

They did an excellent job all the way through. We got offered some pretty good discounts at the fair and some additional discounts from making the deal and that was nice.

Jul 06, 2017

The project was completed with great care and professionalism however, there was no resolution to the shower drain pipe protruding past my office ceiling below. The remedy of covering it was left up to me, even after notifying the lead installer.

The Bath Planet Rep, Jeff, as well as the installers, Brian and team, were meticulous in their work, communicative and just plain awesome! The new shower and detail work around the install is beyond AMAZING!!! I've dealt with loads of contractors and these are by far some of the best, most skilled and reliable.
