Becker Home Improvement did a great job installing the siding, windows and doors. They look great and work flawlessly. They went above and beyond what they needed to do and stayed within budget. I would definitely recommend them for any home improvements.

We had 2 bathrooms remodeled in spring 2017. We met with Randy in late fall 2016 and got a bid but we weren't in a hurry to start and we were willing to work around Randy's schedule. The project started in April 2017 and things moved along well after that. We used some of Randy's suppliers and some items we purchased on our own. There was no pressure to use only his suppliers. The tile work is beautiful. The paint and carpentry work is spot on. The plumber was flexible and willing to come on a Saturday and stay late to get the work done. Randy's workers were polite and professional. All the workers and subcontractors did a wonderful job. There were some things that needed fixing or tweaking at the end of the job and those were all taken care of without question. Randy was always responsive to emails and texts even when I became a little impatient at times. I appreciate his patience and understanding. The job came in a little over the bid, but we made some tweaks along the way which likely contributed to the overages. We are extremely satisfied with both bathrooms. Randy and his team took tired-looking 20+ year old bathrooms and modernized them and made them beautiful.

Becker Home Improvement performed a number of home improvements, the most significant of which was converting a storage closet to a 3/4 bath. They were able to satisfactorily overcome the challenge presented by sub-standard floor joists that were discovered after work began.

Randy and the team at Becker Home Improvement are top notch. Randy and the team have handled every upgrade I have made to my office and my home since 2008. From office buildouts, to emergency drywall repairs, to custom patios, custom cabinets and shelving, and new patio doors. Planning to build a new home and Becker Home Improvement will be handling that as well.

We have used Becker Home Improvements several times for smaller jobs, adding windows, repairs etc: Randy's team just completed an expansion to our kitchen and the final product is great. They do a great job communicating, sharing options and every day they left the area clean and neat. We know we can trust Randy to give us a competitive price and top quality, reliable work. I would highly recommend Randy and we will use his team again.

Working with BHI on a major project we would do very little differently and would have trouble working with anyone else given how positive our experience and end results were. Kudos to a great team that did a great job.
