Apr 12, 2018

This was a major project done on my house and CTG Improvements did a wonderful job completing it. I have had work done by them before and was totally satisfied with what they did, that is why I called them again. Actually, CTG Improvements is about to start our third project in a week or two. I have always been satisfied with their work. I highly recommend CTG Improvements to anyone needing to have work done.

I thought they were absolutely wonderful to work with because they had a fantastic personality. The salesman and the crew had a wonderful personality. We all blended together and got along.

I think the company was outstanding. They were polite, friendly and respectful. They did great quality work, they did their job, they cleaned up, and they got out. They did what they needed to do, and there were no problems.

Feb 07, 2018

We were under freezing conditions when the work was scheduled to be done and I was expecting them to cancel and reschedule the appointment but they came out there anyway and worked all day. When they came in to show me the completed work there was one item that needed to be addressed and they were willing to do that work for me, still under the freezing conditions, the next day. I would not only recommend them to others I would also be more than willing to use them again.

Feb 05, 2018

I was really impressed with the service, from the beginning to the end. When I called, Bobby immediately came out. I thought they were going to have to order the materials, but they did not have to. The project was done very quickly. I was impressed with everything.

They were very professional and the work is perfect. I couldn't have asked for a better deck and ramp. It works perfectly for my mother. Even the physical therapist that came to the house was talking about the ramp and thought it was great for what we needed it for.
