★★★★★

I can't speak highly enough about my experience with the Carroll Construction team. From owner to subcontractors, everyone was professional, positive and problem-solvers. I was contacted in advance of any minor changes for structural or mechanical solutions which were, frankly, over my head. They thought ahead and made efficiency or convenience recommendations on my behalf and not in the interest of saving time. I greatly appreciate their time and certainly patience in working with me on my first commercial construction.

They showed up when they said they were going to. We didn't have to call and ask if they were coming or what not.

★★★★★

The entire team at Carroll Construction was respectful not only to my husband and me, but also to their fellow workers. In remodeling our kitchen, whenever they ran into problems or the need to correct something, they immediately took ownership and quickly and efficiently resolved the issue. I would highly recommend them for high quality work and honest dealings.
