We really enjoy our new screens. We can open our windows at night during cooler weather.

I am truly happy with my Casper Screen. I went out and priced all the different screens I could find for my oversized door. From Home Depot, Lowe's, Costco, and numerous local vendors. I went with Casper because they are a local company that manufactures and installs the screen doors for a great price. On top of it all, the guys were really nice and professional! I recommend them with no hesitation and will be having them install another screen on another oversized door. Thanks Casper!

The concept is good but the material and the workmanship is less than equivalent to cost. Purchased lower track protector but was missing when product arrived. Was shipped out after I contacted them, but it will not fit due to not enough space for even one much less two.

We are so happy with our (2) Casper Disappearing Screens. It is made with good quality materials and durable for a 5 year old going in and out of the house. It's nice to keep our doors open to let fresh air into the house.

I had two companies who seemed challenged to follow my design requests before contacting this company. They had no issues with installing them to meet my expectations. Great work.

Unfortunately the quality and function of the double door screens seems extremely low end to me.... The staff, their promptness, friendliness, and customer service is terrific. The product however definitely doesn't warrant the \$650.00 paid for 2 screens. I was looking forward to keeping our doors open & using the screens this summer. Ever since the installation, the flimsy operation of the screens, the screens falling off the track on almost every use, the screens not recoiling easily, & the screens not remaining shut when they are supposed to has caused me not to even use them any longer. This is quite unfortunate as I have 13 more exterior doors which still can use screens.

In all ways, Dale of Casper Screens was clear in his explanation, proficient in his installation, and helpful in his suggestions. We love the new screens on our doors and French doors for their ease of operation and unobtrusive design.

Overall a very good product. The idea of disappearing screen doors is very appealing. Color matching to the house is great as well as the overall customer service. I do wish that Casper would offer larger discounts for repeat customers, not just \$25 off the FULL price on a small door opening, still costing the customer over \$300.

I was very pleased that they were able to fit me into a very fast turnaround schedule. I had gotten a quote from them over the telephone. I called on the morning, and they installed on the afternoon of the day that I needed. I greatly appreciate their ability to do that.

The screen is very nice quality, easy to use, and operates quietly. I did the install myself which is very simple using common hand tools. I have only had the screen for a few months but so far so good.
