Coastal Solar & Home Improvement was more than fair. They were on time and everything was done exactly as stated. The quality of workmanship as well as the product was amazing. It has been a little over six months now and I'm still just as happy with the product as I was when it was first installed.

I met Adam at Coastal when they sponsored the Clairemont Garden Tour in 2015 & again in 2016. He is very responsive and a pleasure to work with. The install crew was great and the layout designer met my requirement that the panels not be visible from the front of our home. I'm very happy with my system (we are net negative after 8 months-whoo hoo!) and happy to give my business to companies that support our community. Thanks Coastal!

The install crew were polite, task oriented and cleaned up after themselves. When a key for the back slider came up missing, immediately a call was placed to the factory. An hour later we received a call and it was taken care of. A locksmith came by the next day and in ten minutes all was set straight.
