REVIEW

Cory R.

Dec 23, 2016

I can't say enough about John, Stefanie and the crew. We had them take on a complex reno project that ended up having many twists and turns, and they knew how to handle every single one of them. Their attention to detail to our wishes was incredible. You can tell that they even pick their subcontractors with care. We had never heard of Coleman-Dias³ prior, and took a chance on them after simply finding them on the internet, and having a real good vibe after the first meeting. The experience was so wonderful we had them back the next year for a full kitchen reno. Both times, they stuck to the timeline and budget with no surprises. John is a perfectionist in his workmanship and Stef is wonderful to deal with and responds to communication very quickly. They are not the cheapest out there. But they ARE the best value. We have recommended them and will definitely have them back. Thanks John and Stef!

From the designs that Stefanie created to the work that John and his crew did....it was an excellent experience. It's very hard to live through a large renovation, and with their help they made it less painless. We were always kept in the loop and knew when things were happening. And any time we had questions or changes to make, Stef was right there with answers, options and advice. We will definitely use them again. You cannot put a price tag on peace of mind. We are loving our new space. It turned out even better than we dreamed.

I think that the plan that we wanted to be carried out, and the way they approached the system of setting it up, worked out really well. It was really well done, and we are very happy with how it turned out.

We have had CD3 do 3 bathrooms and our laundry room reno. They never disappoint! John's workmanship is excellent and he completes each job as though it was his own home. Stephanie keeps the trades scheduled and oversees the project in a professional manner. Her good taste and creative ideas contribute to the spectacular results. We look forward to having them work on our next dream project.
