I have had many projects completed at my home over the 22 years I have lived here, but Cornerstone Builders is by far the most capable and professional company I have ever worked with. From my first meeting with them, through the bidding process, and now halfway into my job, I couldn't be happier. They have dealt with a few surprises, unearthed when the project started, with ease and patiently helped me understand the issues so we could make informed decisions together. Their subs have been just as capable and trustworthy. They also work to keep the project moving which is a huge plus. I would use them again without hesitation.

Cornerstone Builders Group recently completed a very extensive renovation of our home. To say we were overwhelmed is an understatement. However, with Leo & Frank managing our project, everything ran very smoothly. We noticed, very quickly, that these were incredibly honest guys and the way they communicated with us throughout this process was top notch. The “open book process” was a great way to see where we stood at all times in terms of time and money. We never felt as if our budget was getting out of hand because of their attention to detail. We were very happy with the transparency throughout the entire renovation and are looking forward to using Cornerstone Builders for our next project!
