I have been working with Creative Spaces for the past year while remodeling my cottage by the Chesapeake Bay. John Johnson and his staff have very easy to work with. We correspond at least weekly by phone, email or on site at the house. I have been allowed to make all decisions with expert guidance from John, Chris (site lead ) and Lindsey (designer ). They have been very easy to work with and I can't wait to see my finished house. We have renovated 2 bathrooms, one kitchen, staircase, removed walls, replaced all windows, plumbing, electrical, lighting, added central air and heat, and hardie siding. Creative Spaces provides quality work and is very easy to work with.

Creative Spaces was very enthusiastic and listened to our needs. We're looking forward to seeing what the finished project looks like. They suggested several design options and were very good at painting a picture of what our design project would look like.

John Johnson is an attentive and very knowledgeable guy who was willing to work with us to come up with a plan to update our master bathroom at the price point we could afford. He never pushed us to get anything more expensive than what we thought we needed. After our discussions, he wen away and then later came back with detailed floor plans of what was to be done and told us the expected cost and timetable. He even gave us several alternatives of each item to choose between.

I could not have asked for better organization, handling of resources, and pulling together all the subcontractors within a limited time frame. They have been marvelous and established continuing great relationships.

Comment from Creative Spaces Remodeling

Ms. Martinez, Thank you so much! We have enjoyed working with you and you are a pleasure to work with!!!

My experiences with John Johnson and the personnel at Creative Spaces Remodeling was extremely pleasurable. They communicated with me on a daily basis. The sub-contractors and product suppliers were first class in their craftsmanship, knowledge and communications. John was very helpful in assisting us in selecting products and guiding us thru the demolition of walls, lights, exhaust ducts, floors, old appliances, the relocation of the old cabinets that were restored and relocated to the laundry room with a new work table.
