★★★★★

We were very fortunate to have Dave Brownell and his team build us a beautiful lake house this past year. Aside from the team's professionalism, attention to detail and fine craftsmanship, they are committed to the customer and always one step ahead of process. They have exceeded all of our expectations in delivering a beautiful customized house. Knowing the team would show up on time every day with a full crew, provide suggestions to improve design and support budget makes a world of difference. You would be lucky to have this team build your home - they did not miss a beat.

I have worked with many contractors over the years, and DB Carpentry is by far the best. Perfect in every way!

★★★★★

Dave is amazing! Even though we are 500 miles away I have always felt that I was up to date and involved with every step of the project. He and his team are professional, energetic and very creative when solving unique issues that arose while renovating an 1885 home. We consider them family now and have already recommended them and will continue to do so.
