I would say that out of many who tried to sell me windows , Dan was the one to listen to my needs and had the real skill and windows that I was considering. He was by far the best quality and price in the Metro area!!!!

Dan the Window Man and his staff worked with us to meet a strict timeline we had to meet to get our windows and patio door installed before leaving town for an extended period of time. Everybody involved in the process was pleasant to work with!

Dan is very knowledgeable and recommended a window we are very happy with. There were a couple ordering mistakes which dragged the project out, but in the end everything was completed to our satisfaction. I would recommend Dan to friends and family.

After a truly awful experience with a multi-tasking company (windows, gutters, siding, etc.) that employed a clueless salesman who repeatedly fouled up my order and kept me hanging for months, I found Dan the Window Man. He and his crew were wonderful! He knows his product lines inside and out and worked with my budget to get me the best windows available. I now have a glorious oak bay, a perfect, sunny oak garden window, and a simple slider window that has probably saved us a ton of money in heating costs in our formerly drafty office.

They were the best price I could find. I am happy with the windows, but my house smelled like cigarette smoke for a while after the estimate and installation.

### REVIEW

I had all of the windows replaced in my town home. The patio door had to be reordered as it was the wrong size. Butch and Walter did a great job installing the new windows. The correct patio door was installed a couple of weeks later. Not that big of a deal. The installation was quick and efficient. The town home is much warmer and the windows look great and all at a very low price. "Dan the window man" is your best "bang for the buck" value play.

Salesperson came on time.. explained everything..  
suggested some ideas... and the installers are very  
professional. Quality window and worth for the  
money.

Dan The Window Man did a great job. I've used this  
company on two of my homes and I would use them  
again in the future!

The crew was very professional. His production  
manager (whose name is also Dan) was extremely  
helpful. I have never worked with such professional  
people who are all about coming in and doing a job.  
They really took care of us.

Dan The Window Man responded in a timely manner  
and showed us their available products that fit our  
needs and budget. They also completed the work in a  
professional manner and we are pleased.

Dan strikes me as a business man with a lot of integrity and honesty. Ultimately that is why I went with him. I really felt like he would back up his work and products and that he cares about doing an excellent job. He is also professional. I know I can be a slightly demanding customer because I really research when I do anything. He never seemed put off by this and always got me the info I needed.
