This was our second time building with Diyanni Homes. The first experience was very enjoyable but this second home experience was even moreso and we were blessed that our dream home turned out even better than expected. From working with Henry to getting the home size and room dimensions that we wanted, to Mary and her great taste with color selections, to our wonderful construction manager Jim, to name a few, they each worked with us every step of the way. Everyone at Diyanni Homes and their subcontractors were polite, professional, courteous, and responded promptly to any questions or concerns. Many of our family and friends have commented on how well the home was built and looks. We feel very blessed and grateful that we chose Diyanni Homes and look forward to enjoying our new home for many years to come. We highly recommend them. Many of the features that are upgrades with other builders are standard features with Diyanni Homes and that is another reason that we chose them and recommend them.
