They are really good. This was our first time looking for something like this, and the price was right. It is just as they said it would be. We are really thrilled to have it and use it all the time.

EHLS was recommended to by a nurse due to a progressive terminal illness. We interviewed three companies. Prices varied. EHLS was lowest, but was chosen because of their submission of multiple designs/discussions about our goals We combined a small bathroom with a laundry room. The end product is "stunning." We were extremely impressed with the expertise in consultation, decision-making of all personnel/office people. First name basis. The two men who completed our bathroom were skilled in all aspects of a remodeling/building project. Prompt, knowledgeable, efficient, meticulous and friendly, they became family members. Told EHLS that we would have them back for another bath remodel when we are ready.

Twin Lakes, IL
Oct 31, 2017

This chair Lift was to replace an old one from Cheney Company. EHLS installed an outside Chair Lift of least 30 Feet down at an angle of 30-40 degrees from Bruno Manufacturing. Other companies could not supply rails long enough or did not provide good estimates as EHLS. They were also familiar with the Cheney company product .

The entire team at EHLS was courteous, knowledgeable and professional. They provided an in home solution which was within my budget and met the needs of my mother in a very timely and efficient manner. We are very pleased with the stair lift and with their staff and service. We would highly recommend the company and should any further need arise we will call on them again.

I don't understand why the cost should be what it was. Yes, it is custom, but that in itself shouldn't command the price. We are happy with the product. Since our life event warrants our need to make many medical purchases it hasn't gone un-noticed the the entire medical supply market has high prices. Almost like being injured all over again. Quite disappointing. With all the talk of corporate greed throughout the country I now see it for myself. Sad.

I am so glad I called EHLS when I was looking to get stairlifts in my mother's home. From start to finish they were professional, punctual and communicated with me every step of the way. I asked the tech that came to remove my mom's stairlifts after she passed to communicate my sincere appreciation back to the company. I'm glad they sent this survey...THANK YOU for everything you did for us. I HIGHLY recommend this company!!

We got the stairlift in fear that my aunt would fall down the stairs. She used it all the time but because of that she lost her own leg strength and ability. In one respect in kept her from falling but on the other side she regressed but I would have done it again.
