Fairview is the hidden jewel of home improvement! LEIGH IS SIMPLY AMAZING! We are on our 3rd project with him. Decking, Windows, and a New Front Door Package. He is very knowledgeable and helpful. He is so patient and gives you all the options and prices without being pushy. He is exceedingly professional and personable at the same time! He worked hard to find the exact decking we were looking for. He found us an amazing front door package with vented sidelites!!! We didn't even know that such a thing existed. He took time to demonstrate different products and he really listened to what we wanted. The products are such great quality and the rest of the staff is very friendly and helpful as well. We started at Home Depot, but wanted more options and better quality... So glad we found Leigh and Fairview!

Working with Cindy was a great experience. Her communication with my builder was excellent. I would never hesitate to go back to other designers. She far out surpassed the big box stores.

Fairview Millwork is a great company to work with. I've been working with them for over three years and done over fifteen kitchens with them. I would highly recommend them to anyone looking for a kitchen.
