Freeman General Contracting did an outstanding job with the installation of new gutters. The gutters themselves are top quality and they performed the job within the time frame scheduled, were extremely helpful (and even moved an item that was too heavy for me to move) and professional. I recommend them without hesitation.

I paid a deposit for work to be done on the roof, but it took a long time for a crew to actually come and make the repairs. I had to keep contacting them to ask when the work would be done. There were a few days the weather didn't cooperate which made the work take longer. The estimator came to write an estimate for additional work and was very thorough, but when I tried to follow up with additional questions, he stopped communicating with me.
