Natalie was our design expert and she was extremely knowledgeable and courteous. She gave us several unique style options. I highly recommend her and have already made a referral to her.

Mr P.
Fontana, WI
Feb 15, 2017

Natalie offered great design ideas and worked well with our interior designer to make sure the style of the kitchen flowed with the rest of the house. Work with Natalie was very efficient. Natalie often had the best options laid out and outlined ahead of time so decisions could be made quickly. I was also please that Natalie was willing to let me know what she thought worked best. I was impressed with the courteous nature and professionalism of all of the GCC staff.

Joyce was so professional but most important kept my "want list" as a priority while still making things work esthetically and cost effective. Her personal experience was so important to me but she made me feel that she really wanted me to be happy when all was done and completed. Could not recommend her more highly. Here attitude is more of a friendship which is what you really need when going thru a major remodel construction. Couldn't have been able to have the beautiful kitchen I now have without her. She is the best and I love love love my kitchen!!

Round Lake Beach, IL

Jan 26, 2017

From start to finish, Natalie and Geneva Cabinet Company listened carefully to what we wanted in our bathrooms design and offered numerous options for our budget. The work was completed on time - as promised and was of high quality. We're extremely happy with the way our bathrooms turned out.
