The staff and contractor I dealt with were courteous and professional. They returned my calls and answered any questions I had. The quote I got was fair and reasonable compared to the other three I got, which were anywhere from \$500 - \$1000 more. Two contractors gave me quotes and I never heard from them again.

We rent our home through a property management company so I did not have a choice in who came to fix my garage door but I am SO glad that they chose to use Go Roof Tune Up! They called me minutes after getting off the phone with my property management company to schedule my appointment. The technician arrived right on time and had my garage door fixed SO fast! He even did a small tune up to make it quieter and work even better! I would recommend this company to anyone that needs garage door service and will definitely use them in the future when we become home owners!!

This company does not adhere to the set schedule. The crew came and went as they pleased. This disrupted my boyfriend's sleep as he works nights, and the work was right above our bedroom. They agreed to come during the times that worked for us but did not. They came at incorrect times 3 different times. They also failed to show up on the days scheduled, not even just the time of day.

I'm a renter. Called the landlord reference potential roof damage. Many days later I received a call from Go Roof Tune Up, Inc stating they'd be out to look at my roof. Never saw them and never heard from them again. There's a piece of siding along the roof line that is still sticking straight out that just needs to be reattached. I'd think if they were up on the roof in that area they would have tapped a nail in it.

They arrived early to complete the work even with the bad weather in Washington. They wanted to make sure that the rain wouldn't get into the house and cause damage. After the repairs were approved by the rental company they completed the job quickly ahead of the scheduled time.

They came out for a different repair and they told my landlord that a mold issue was needing immediate attention. They went above and beyond to make sure the original repair and the mold issue was a necessary fix. They also took my Christmas lights down. My family is no longer sick because of this. They went above and beyond.

What I like most about Go Roof Tyne Up is that they are honest experts in what they do, and they don't try to sell you a new roof. They fix what they fix, and they stand behind it.

The office scheduler and the field worker didn't communicate about schedules. I would sit at home all day for a 9:00 AM appointment and the worker would show up at 5 or 6 PM and say he didn't know of the scheduled time.

Dec 21, 2015

I am a resident that had a worker come to my house. The first appointment that was scheduled had been missed completely with no call no show. I was completely understanding and rescheduled as I understand things happen. The worker came and was on time for his appointment and was friendly. He did not repair the wet inner roof shingles and another has fallen since the initial visit. The worker said that there were more issues pertaining to the chimney area and he had to speak with his boss to complete and finish the job. I thanked him and he left. A few days later I had not had any contact from the company so I reached out to the scheduler(Pam Denton) myself. I emailed her numerous times with no reply. I also did not want to complete this survey just to give them a chance to make it right for the customer. I emailed Pam again with no response. I then reached out to my landlord to try and get the issue resolved. The roof is still leaking, it is caving in and wet. I do not appreciate the way my request has been handled nor the neglect of response.
