Quality of construction, interior workmanship (exterior fine), and materials used (interior) are ALL well below average for price point. I would not recommend Greenscape.

Great homes, glad we decided on Greenscape. Excellent experience with the sales staff and especially the job site superintendents.

Working with Ken Benson during the buying/negotiating, picking of finishes and closing process was great - he was always very responsive and it felt like he was always being fair and honest with us.

Overall great experience. Staff were very professional and very easy to work with. Not a small builder which may lack the necessary quality control or a big builder which can be very rigid. They are upfront and follow through the agreement quite well. Happy with the home so far (just moved in for 6 weeks) other than few minor problems, e.g. different stain color on the hardwood floor than on the stair steps.

Working with Liz Kozar was a wonderful experience. She was incredibly helpful and diligent in answering our questions and meeting our needs. We felt very comfortable throughout the whole process and knew we were getting attention and respect. After a negative experience working with a builder in a condo renovation at our prior home, we never thought we would purchase directly from a builder again. Greenscape changed our opinion and convinced us that there are still builders that do everything they can to satisfy their customers.
