They did a fantastic job. It looks like it's brand new.
You can't smell any smoke in the house. I appreciate
it even though it took 6 months.

I am very dissatisfied with the company.

Comment from HCI Fire and Water Restoration

Mr. Lassiter thank you for taking time to fill out our survey. During a hurricane situation like Florence we send out a two person extract/inspect crew so we can get projects scheduled you called on the 18th, we responded on the 19th and water was still entering the home after our extraction and demo that day. When we called back the 21st to reassess you let us know our services were not needed. As you stated above you did not want to pay the market rate for the services we performed so we moved onto other clients who were paying.

They were very good. They came in as quickly as they were called. They got started, and I feel like they had a lot to do with saving the floors. We got within acceptable ranges as quickly as they could have.

I am satisfied with this company for several reasons. They did whatever they said they would do and they kept me informed every step of the way. I never had to wonder if they would return my call or if they would show up to work on my house. They were very concerned with customer satisfaction and went the extra mile to ensure that. The quality of their work was great!

Comment from HCI Fire and Water Restoration

Thank you Sherrie!
