They did a physical inspection of the roof area before starting work. Roofing material was delivered on time and complete. Installation took two days. The roofing crew was on time and worked effectively and without interruption. Clean up and trash removal was thorough and fast. Post inspection of the roof was done within two days of completion. Lee's did a complete and accurate sales job. Sheryl's did a great job with scheduling and service during and after the job. I was well pleased with all aspects of Hicks Roofing work.

I think that they have done a wonderful job and met all of my expectations. I would recommend them. Sheryl has had excellent customer service and has been great. The sales person was also very thorough and took the time to explain everything to me.
