It was a rough road getting to the finish line. The end product is amazing. I get a lot of compliments on our pool. They did a really good job, despite the problems we had along the way.

Overall, it was a great experience with Hilltop Pools installing my pool. Love my pool and the way it turned out. They listened to what I wanted in a pool and built it to my specifications.

Hilltop was outstanding from the initial consultation to the end of the project. They made the process as smooth as possible. Everyone was very easy to work with and responsive to questions and concerns. They were very honest, transparent, and there were no bad surprises. Workmanship was high quality and prices were very competitive. I'm happy I chose Hilltop and am fully satisfied with my new pool.

The work was good. I felt like I had to general contract some things as to see if things would have been scheduled. If I would have just sat back and let things go, there would have been some delays.

I would highly recommend Hilltop to my friends and family. Everyone genuinely cares about your pool meeting your needs as well as making the best use of your backyard. At each step, we were consulted to ensure we were happy with the final product and several changes were made from initial design which enhanced the overall look of our entire backyard.

Kelly Erjavec at Hilltop Pools who literally selected all the finishes for my pool was the best. I believe you hire a professional to do a job and you should listen to what they suggest. I did just that and asked Kelly for her recommendations and went with everything she suggested - all her selections made for a beautiful pool. Shane Bailey is also to be commended for his "go above and beyond attitude" for the customer. Shane was the crew leader responsible for the pool construction toward the end of the job and did an excellent job of making sure that everything finished correctly. It is rare to see an employee like Shane who represents a company so well. Having done a lot of research prior to selecting Hilltop Pools, it is understandable after having selected them why they have been operating under the same ownership for over 40 years. This is truly a rarity in the pool building industry. If you are looking for a quality job with professionalism then Hilltop Pools is an excellent choice.

We were not sure what to expect being our first pool, but the end product we are so pleased with. When Jon came to our house and showed us pictures I wasn't sure if we would be able to afford anything near what were in the pictures he had. Jon designed a pool in our budget and Shane help with the layout of the concrete decking. Not only did we get a pool but also more outside living space.

This experience was the best that you can get, from getting started with Matt, to his sister coming out and calming me down, to Shane coming and working with us everyday. They were a really sweet group of people, were here the whole time, and did not leave us hanging. Brittney contacted me every time a new phase was starting.

I am so impressed with Hilltop Pools. From start to finish everyone we dealt with was professional, knowledgeable and so kind. We had some unique issues to deal with because of the topography of our land. Hilltop offered solutions that not only added to the beauty of our pool but were affordable options too. Not only does Hilltop Pools have a wonderful staff, I feel like we made a few new friends along the way!

Apr 23, 2016

We are so excited about our new pool. I want to say thank you to Hilltop for an exceptional job. Even when our inspector told us that we had placed the pool too close to the foundation of our home, Hilltop immediately began to resolve the problem and had to "re-dig" the pool. I know that there was cost obviously involved in this; yet Hilltop still honored our quote and commitment to stay within our budget. This was invaluable to us. From start to finish the process went smoothly and the workmanship was exceptional. Even small details like water collecting in a small puddle on one section of the deck after the first rain was addressed immediately. The pool is absolutely beautiful and easy to care for thanks for the instructions given by our Project Manager, Shane. Our family will enjoy this pool for years to come!

REVIEW

Apr 21, 2016

Hilltop handled our pool projected very professionally, from the initial meeting through handling punch list items. The company is well-managed and everyone we dealt with was focused on getting the job done right. Their employees are courteous and behaved professionally at all times. Matt Miller instilled confidence in us from the very first meeting and Project Manager Shane Bailey continued that trend throughout the completion of the project. We would happily recommend Hilltop to any family contemplating a swimming pool.

Mar 02, 2016

This has been a great experience from start to finish. Everyone involved in the entire project was friendly, professional and responsive. They commenced work as soon as possible and stayed on the project all the way through final approval. Another "kudo" for the company is when there were two construction issues, they immediately embraced and worked on the problems until they were solved. I highly recommend Hilltop for anyone looking for a great pool with great customer service at a fair price!

Over the course of 3 years we interviewed 4 pool contractors. Until our 4th, I was beginning to think I'd never find a pool contractor I totally felt comfortable with and that I would need to resolve myself to giving a large amount of money to someone I just like and trusted a little. Luckily, our 4th contractor we interviewed was Hilltop. From start to finish the project was a breeze. We were never surprised, always knew the costs and were more than adequately informed of each stage. I cannot recommend them enough!

Sep 24, 2015

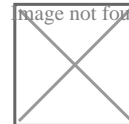

Before we built our pool, we did a lot of due diligence and interviewed several pool companies before narrowing it down to two companies. Hilltop met with us several times over the course of months before we had even finalized our decision. We visited 4 different homes of Hilltop pools and we received consistent feedback from everyone - "... what they tell you up front is what they do - no hidden agendas or fees etc - professional and easy to work with on a project.." We chose Hilltop and found all of it to be true. They were great to work with, communicated timely and effectively, kept us informed along the way and built an awesome pool for us from start to finish. Even after our project was done and we had minor issues, they were quick to respond and help us resolve the issues. We would highly recommend Hilltop to anyone looking to get a pool.
