I would strongly recommend Home Shield! They were very professional every step of the way. They came when they were scheduled. They did top quality work. They cleaned up after each day's work. Their people were extremely nice to work with. I have already recommended them to several people I know! They are a great value - top quality.

These guys went above and beyond. The professionalism was out of the ordinary. I have used big names, such as The Home Depot, before and Home Shield Coating surpassed them completely. They made sure to clean up each day after their work instead of after the project was done. They took my kids into consideration + they were allowed to play outside without worrying about stepping on a nail or anything.

The gentlemen, George and his crew that did the work were excellent. Highly recommend that crew to anyone that has their house done.

Everything was done well in a timely matter when the weather cooperated. Crew was nice and helpful and easy to communicate with. Happy with all the work done with the one exception below.

Comment from Home Shield Coating

Thanks it was a pleasure working with the two of you on your project.

The product is really good, but be VERY CAREFUL in your color selection. The sample does not always match the product.

Comment from Home Shield Coating

We are sorry to hear you had a difficult time selecting colors.
