When they built this room, they did an outstanding job. The carpenter they had at the time and Randy Perry did all the measuring. These guys were right on the money.

My daughter lives in Beacon and they have a showroom just up the street that we pass all the time. We saw their advertising as well. The people came to the house, measured, and asked what we wanted. We got what we wanted and then some. I couldn't be more pleased.

The only thing that may have been short is we have electric heat, and it can get a little cool at night in the sunroom.

I am most satisfied because they gave a good recommendation on where to put the door. My husband wanted to put it in one location, but he suggested we put it where it's located and I'm glad he did. It's in the perfect location.
