I was just very pleased with everything. They were awesome. Worked diligently, cleaned up after themselves, left the job site clean when finished and was easy to communicate with, answered any questions and explained everything clearly. I just can not say enough good about it.

Generally we like to get multiple bids before we get work done. But we were very impressed with Randi (our JG Contractor Rep) and how knowledgeable she was about our neighborhood (HOA, roofing materials etc), insurance companies and she was friendly and non-pushy. I figured even if we ended up coming out of pocket a little more it would be worth it because of the AWESOME customer service.

From the time we signed contract to completion took way to long. The roofing crew was great. Their painting crew was way below expectations.

JG Contracting is a great company, the gutters and fascia are beautiful. They do need a new vendor for the siding work or do it in-house themselves, other than that I am very satisfied.

JG Contracting gave me a great value for my money! My estimator was knowledgeable and very helpful! She noticed and looked up information about my house before coming for our initial meeting. She inspected the underside of my roof, and noticed that the plywood would have to be installed on the entire roof. She let the office know that beforehand.

JG Contracting is very unorganized, I had to stay on them to get my jobs completed and it took them about 10 months to complete when it should have only taken them a couple of months. The contracted workers were great and I am very satisfied with their work, but I DO NOT recommend JG Contracting,
