Ken's work on my project was very good on quality for a reasonable price. Kept the job site clean and hauled away ALL old materials/waste from the project. He followed through on the project when other contractors might have bowed out when it got messy due to unforeseen issues. I would definitely use KP Carpentry again.

KP Carpentry did an excellent job fixing my windows. Many of them could not stay open; Ken repaired them quickly and in a very friendly, professional manner. He was efficient, clean, and responsive. He gave me a very fair price. I have trusted Ken for many projects in my home. He's knowledgeable, reliable and friendly. Highly recommend!

Ken did a really nice job. It is what I wanted. We spoke about my vision and the vision he had to construct. It took some time to come together, but it is exactly what I wanted and envisioned. When working with a contractor it can be hard to communicate your ideas. We had good communication, so the project came out the way I wanted it to.

I would recommend KP Carpentry without hesitation to friends, family, and business associates. Overall, our projects were relatively small but we received professional advice, courtesy, and consideration by the owner, Ken. My husband and I are happy with the quality of the service, materials, and workmanship, and would call KP again for any size project.

The work done KP Carpentry was exactly what we wanted and then some. The project looks amazing. We were able to live in our house with our 4 kids while it was all going on and felt that everyone was safe. The project was done in a timely fashion and under the quoted budget. I'm already looking for other projects in my house to have KP Carpentry back to work on.
