I come from a construction remodel background . Kaufman Construction did a complete remodel of my master bath, with major wall and fixture moves And a remodel of my Kitchen also, great staff and crew on both projects. It as a pleasure working with all, especially Devan and his Designer Matt. My vision was completed in high quality, and I am very pleased. I have also used KC Handyman service for 2 other projects. I would recommend Kaufman's to anyone wanting a professional job in a timely manner . A visit to their office will give you an idea of their professionalism.

Although my projects are small. Kaufman has treated me like it the most important job to finish. I have used them in my remodeling as I am unable to do the work myself. I would highly recommend for anyone that wonders should I get the updating done on my house, yes should be your answer. KC Handyman will finish your job and life will be better because you chose to get the estimate and have one of their skilled workers complete the job. They make you happy!

They did what I asked of them when they redid my deck. It looks and feels to be more sturdy than my old deck. I really like the look of it also. To me, it looks more finished than my old deck. I think they did an excellent job.

These guys are awesome! The foreman thought ahead and covered up an opening in the floor so my cat wouldn't get into it!!

I use KC Handyman because they have excellent project management. They estimate, they schedule, they come when expected. Sometimes their workers are amazingly skilled; occasionally they lack the necessary skills.

Kaufman Construction is the most professional, organized and courteous service company I have ever worked with. They did an exceptional job of setting my expectations and meeting them. Even when I was disappointed about delays or prices that were somewhat out of Kaufman's control, the most critical aspect was that they communicated well and reset expectations as necessary, I literally didn't lift a finger during this huge project - they took care of EVERYTHING.
