Kitchen & Bath Concepts of Pittsburgh was the most professional, organized, personable company to deal with and I would recommend them to everyone. We were so pleased with the outcome of our kitchen. It truly looks like a master carpenter did it and the design was superb!

K&BC exceeded my expectations. I was working with them remotely and I found them to be more responsive than some companies I was working with who were local to DC. The kitchen looks amazing and they made the entire process seamless and easy. Their team was an absolute joy to work with. They responded quickly on the few issues that came up and always had smart solutions.

I've used Kitchen & Bath Concepts since '95. We are totally satisfied with the work they do. They don't hesitate to fix any issues that we have. We have an outstanding relationship with Kitchen & Bath Concepts.

KBC helped me reclaim control and quality of a significant remodel I had started with another contractor. They did such a good job with their design approach and craftsmanship that when it was done my house received multiple unsolicited purchase offers. I ended up selling and investing in another major (7-figure) estate renovation. This time, I learned not to waste time and money by calling any other contractors. I quickly engaged KBC and they professionally managed every step of the complex project and delivered a stunning result. Thank you KBC Team for delivering on your promises and being the unusual contractor who actually delivers on time and on budget.

I have used KBC on several, large projects over the past 15 years. Although expensive, every job has been done professionally and perfectly by an excellent team. This has made the entire process effortless and stress free for me!! Plus I'm excited to see the results as the design team always comes up with a "wow, I love it" result!
