One of the managers, Simon, who called to see how things were going, was good. He did an excellent job and kept on top of everything.

I was most satisfied with their workmanship. They painted several walls and you can't even tell them from the original walls. They were excellent. It's hard to match paint when it's 2-3 years old.

★★★★★

It was an eight month nightmare. projects had to be re-done over and over due to workers not knowing what they are doing. I had to contact owner to get things going in the right direction. I will give John Mac Kenzie credit ----he did stay on top of things after the report and got qualified workers. I just wish that could have occurred months before and this project could have been easily completed in 3 months max.

They cleaned up after themselves and it was safe. If I had any issues I would let them know, and they would address the issues immediately.

I was most satisfied in terms of Richard, Joseph and Simon. Richard was the one that brought the fans in to dry the walls and floor. Joseph came in to do the estimate, and Simon's communication was awesome.

Our project managers, Joseph Lusca and Simon Stonesifer, were exceptional every step of the way. There was overlap, with our project encompassing the emergency water mitigation week end and some holidays, and the communication between these two was excellent. It was evident they each maintain communication, as well as supervision and back up, for their team members.

The amount of care and attention demonstrated by all who came into our home was nothing short of amazing. Being able to depend of workmen showing up as scheduled was a pleasure we have not always enjoyed with other contractors and service people. Especially appreciated was the clean and safe workspaces at all times.

MacKenzie responded immediately to an after-hours call concerning our roof leak and interior water damage. All the people who responded to our emergency and worked through completed repairs several weeks later were very professional at all times. We especially appreciated the patience and willing to work with our schedules, as well as including us in each step of the process. Customer care is obviously valued by MacKenzie Restoration, Inc.

One of the problems was that a car had run through a fence and knocked down a garage, and they actually came out and put up a temporary fence so that Ms. Britton could let her dogs out. I thought that was really nice of them.
