This company has a great product and does a great job. Make sure to do a thorough walk around, before signing the paperwork, it takes a while for them to come back out. Although this company is great in customer service they lack in communication. The sales rep did a great job presenting the product to us. I had researched the product and knew about it already and had few questions. I did sign up for the 18 month interest free, which is a high payment for full payoff. The sales rep said I would be able to use a credit card which is not true. They do charge for set up on different ways to pay and also per payment.

I was very happy with their craftsmanship and the quality of the product. There is a lifetime guarantee and so far it has held up great. It has been a year and a half and has done quite well!

You can never get in touch with the owner, the owner has never called me back. I've left messages with the secretary. I just left a message with Denise, and sent an e-mail asking if anyone was going to fix the rotten wood, and I have never gotten a response. I'm an easy going guy, but to paint over rotten wood? They were supposed to paint the fence in the back black, they missed about 1/4 of the fence. That's going to rot. Once you pay them, you can forget about any kind of service. I've had several friends that wanted to use them, and I've told them NO.
