Pick-It Construction did an excellent job of completing the build out on new building. Everything was done as they said it would be and when they said it would be. Jim and Doug did a great job communicating and scheduling. We were very happy with our experience and finished product! Thank you!!

★★★★★

I called 10 contractors in the are to have work done. Only 5 called me back and of the 5 only 3 provided timely quotes. Of the 3 quotes, Pick-it was about 10% higher than the lowest quote. I chose them over the lowest because they seemed honest and punctual. If I had to do it all over again, I would chose Pick-it.

I'm not sure that "fell short of your expectations" is the right way to put it but I think it would be helpful if you guys could put together something to explain all of the steps of the building process for people new to the home building process. Sort of a "Building your first home for Dummies" type booklet. There were a few times during the process that we were a little confused and anxious about the process when we didn't need to be because the guys at Pick-It were totally on top of things but we just didn't know to expect. Doug did a great job of answering any questions we had once we figured out the right questions to ask.

Hard to say. I'm very satisfied on many levels. Everyone on the team, especially Doug Prince, went out of their way to ensure that the house was built just the way we wanted it done. The quality and craftsmanship are top notch. They answered all of our questions and we had alot! Doug did a great job of keeping the project moving and on time and they kept to the budget.

REVIEW

Doug, Nathan and all of the gang at Pick-It did a fantastic job of building our new custom home just the way we wanted it built, on budget and on time! We had ideas of things we needed in our home to be able to accomodate 2 children with special needs and Pick-it was able to make them happen. We were concerned about our tight budget but working with Pick-It and their awesome sub-contractors we were able to get the whole project and a few extras done on budget without needing to make any sacrifices. The best part was when Doug learned that we hoped to have the house completed for our 20th anniversary he was determined to get it done and he handed us the keys on our anniversary! I would definitely choose Pick-It Construction if I had to do it all over again!
