★★★★★

Overall, everything was great but there are some post-implementation issues that haven't been resolved.

★★★★★

The beginning sales person was good, and the end person was also good, but because there wasn't communication during the build, everything had to be done twice. The supervisor was never here, and there wasn't any communication between anybody.

★★★★★

The sales team is very professional. They worked with us to give us the best deal on the pool installation and gave us a great rendering of what the pool would look like with the options that we asked for; they wowed us! Overall, we are very happy with the pool and the process.

★★★★★

Overall the pool and yard turned out beautiful however there were many hiccups along the way. The supervisor and subcontractors displayed poor communication, and inconsistency. Premier Pools and Spas did assist with this by assigning a new supervisor to my project, which allowed the work to be completed smoothly and beautifully.

★★★★★

Sales team, owners, etc. are awesome! The construction and contracted crews, especially landscaping, are not very good. I highly recommend using them for pools, but not hardscaping and landscaping.

Some of the subcontractors are not as professional as the company in its whole. We love Premier Pools and Spas.

REVIEW

Gina G.
Queen Creek, AZ
Jun 29, 2018

We, in good conscience, cannot recommend this pool company to anyone. We would not feel right setting anyone up for what should be an exciting experience, knowing, that working with Premiere is NOTHING like what is portrayed on an episode of Pool Kings!! We are still, 2+ months after our "completion", waiting for a call back from our Salesman to resolve the many punch list items that are still outstanding. Our backyard is absolutely gorgeous; however, that is mainly due to my husband's ability to go around and fix the details that were clearly not done correctly by Premiere. We should NOT have had to re-pitch and properly drain our patio, jackhammer out the dried pebble tech that was "hidden" along the side of our paver walkway, be left to accept a scratched up stainless steel refrigerator and drop in BBQ grill because the crews that installed them had mortar and cement on their hands or be forced to re-wire the electrical for the lights in our bench because they cemented the wires in and the lights got too hot and melted. All Premiere seems to care about is the payments that are due to them and they have no concern for customer experience or quality workmanship.

Gilbert, AZ
Apr 12, 2018

Joe and Premier done a fantastic job on our pool and we would highly recommend them.

REVIEW

Kumar M.
Mesa, AZ
Apr 10, 2018

Very poor quality of work. They destroyed my backyard and would not take responsibility for fixing and cleaning. My travertine is still loose. The pop up pump quality is very bad. My band new pool looks dirty at all time and had to invest more in buying a vacuum to clean the bottom of the pool. We were a cash costumer and I accepted a lot better costumer service from them. Overall I do not recommend premier pools.
