I think the design was great but the execution was sloppy.

I could not be happier with how my pool and outdoor living project turned out! Every single person from start to finish has been top-notch. Kevin's pool design experience and insight was so helpful - I would not be as happy if we'd not implemented his recommendations. Even the digging crew was amazing - it was obvious that they were absolute experts in what they do, which is how I've felt about everyone we've come in contact with at Prestige. Stuart, our project manager, was so responsive and Beth and everyone on the office/back-end were so helpful. I am so glad we went with Prestige - we truly have the pool and yard of our dreams!

My wife and I are over the moon happy with our new back yard paradise! Choosing the right pool builder that will listen to your ideas and dreams is a huge decision to make and I couldn't be happier that we made the right choice with Prestige! Stu and everyone involved with the entire process was professional, patient and diligent. We couldn't be more pleased! What are you waiting for...give them a call today and you will see what I mean!
