We've had Rain Drain LeafGuard gutters on our house since 2002. We've never had to clean them. In 2012, a tree limb damaged a section of gutter. It was promptly replaced under warranty. We recently added Rain Drain LeafGuard gutters to our garage. Seventeen plus years of no worries -- WELL worth the price!

Anybody who would ask me, this is the only way to go. It protects your house and it doesn't leak. I would recommend them.
