They were great! It was quick and they handled the coordination of the gutter, fascia, and critter guards also. So helpful! I would use them again! Thank you!

I was really impressed with the how quickly they were. The people both on the phone and the workman were extremely nice. I dealt with Michele and Brian and both were very kind and answered all of my questions. Nothing but good thing to say about my experience.

They are local so that is something that was important to us. I know if I have an issue it will be easier for them to come and fix it than someone who is 5 hours away. They have good ratings and that is why we used them.

I had debris come into my house from the fan above the stove. Someone did come and clean it out but when it happened again, no one came? I noticed today after windy weather I had more shingle debris falling into my stove.

Tadlock Roofing re roofed my two homes recently. The whole experience from start to finish from the sales person, the office staff the workmen to the final consultant, gave the impression that these guys knew their business. Minor issues (a piece of stucco came loose and fascia gutter board came loose)...
