Teague has been my go to electrician service for years, since moving to Overland Park. They always give honest estimates, answer questions and do the job correct. I'm very happy to have found a company I can trust. Doug, Jeremy and Shawn were all great to work with and I appreciate their professionalism.

They were incredible and went above and beyond! They had to go through the attic in order to assure that we could have an outlet placed above our fireplace. Thank you for your incredible attention to our needs and skills.

I have used Teague Electric for nearly 30 years in total. Teague Electric wired our current home when it was built in 2010 and did an excellent job. Since then we have used Teague for various updates, additions and modifications. They always perform quality work on time and for a reasonable price. The only electrical contractor I use.

★★★★★

Chris came out to install 6 can lights in my kitchen ceiling. I had miscommunicated when I set up the appointment and they had ordered the wrong size of can lights. No problem for Chris, he made a quick phone call and within 30-45 minutes a courier showed up with the bigger cans. Chris was very thoughtful in the light placement and made sure that I was in agreement before he started the work. He was polite and concerned about cleaning up after he finished the work. I finished my entire basement about 16 years ago and Teague added a sub panel and did all of the wiring and lights. While they are never going to be the cheapest quote you get, you can always know that you will get a good quality and workmanship.

This is my first time getting service on my generator from Teague Electric. An incredible value relative to the other suppliers in the area. Their personnel are accommodating, knowledgeable and efficient. I will continue to employ their services. As an aside, Teague also installed my electric service when I built my home over 9 years ago. The system has been flawless, and I also appreciate those who have been here before. The person who came to service my generator was the same person who installed the system years ago. Great job!

Sep 30, 2019

Teague provided awesome service, and I commend them for a job well done. We had a tree incident that took our power out. We had to deal with various contractors to get other repairs done before Teague could come out. Teague was extremely flexible and accommodating. On the scheduled day, the crew came out, was very professional, and got the job done in a thorough and timely manner. Highly recommend!
