Our experience with Teknika Design Group was excellent. From the initial meeting, through to completion of the project, we felt they totally understood our vision and were very supportive in helping us achieve it. Our kitchen footprint was small, but Marcy's design maximized the space, in line with our concept and we are delighted with the end result.

Teknika offers outstanding customer service, works on the very highest levels of integrity and honesty, and does exactly what it says it will do. There are no surprises, no gimmicks, no hidden costs. In addition to being gorgeous, my kitchen is a powerful statement of how a major design and construction project should be done.

We appreciated the thoroughness from the design process to the installation. We were delighted with the suggestions made. Teknika thought of things that we would not have thought about ourselves which made for a superior end product. We are delighted!

Regrettably I am on professional overload right at the moment and don't have time to compose anything. It's great if Marcy wants to take pictures of anything in the condo.

The Teknika Design group is terrific! Our remodeled kitchen turned our house into a home. I would also recommend Teknika Design Group to anyone needing work done.

Comment from Teknika Kitchens and Baths

Thank you. It was a pleasure to work with both of you!

When we first visited Teknika we had a vague notion of our end in mind. Through the patience and insight of our designer - Marcy Huss - we ended up with a beautiful kitchen that perfectly reflects our needs, our tastes and our budget. There was never any pressure as we worked at our own pace. We always felt a commitment from Marcy to provide us with whatever we needed to help us with our next decision. Thank you!

Comment from Teknika Kitchens and Baths

Thank you for this. It is wonderful to get such positive feedback!
