We could not be more pleased with our kitchen. Everyone who sees it is amazed. It is a very functional kitchen for a short, arthritic, elderly lady. The A Plus construction was fantastic also. Their workmen were courteous and diligent. They did everything they could to give us the kitchen that we wanted.

My designer's name is Paula. She showed up at the house exactly on time and went right to work measuring. We discussed what I hoped to accomplish and later met up at the store to over options and select products. It was great being able to pick what I wanted right off the floor.

Overall, it was a very good experience. The quality was excellent. The only negative was that our order was delayed in being process. Something was lost in paperwork, and it was delayed a month. When they realized they got right no it.
