The Kitchen Studio of Glen Ellyn team was an absolute delight to work with! They executed the combined vision we had for the project and the results are simply incredible. Susan and Lindsey were always accommodating while seeing every detail through to the very end. We highly recommend anyone interested in amazing design work and quality craftsmanship to talk with them.

Susan and her team at The Kitchen Studio of Glen Ellyn were fantastic to work with. The design process was much easier than anticipated, and there were multiple options for finishes based on what fit into our budget. We could not be happier with the final product, and knowing ahead of time what the schedule was, and the fact that they kept to the schedule made everything so much easier. We knew what to expect, and when to expect the project to be completed.

We were very pleased with Susan and the team at the Kitchen Studio. We had a vision for our dream kitchen and Susan worked closely with us to bring it to life and far exceeded our expectations. They were super organized and professional and even finished our kitchen ahead of schedule. We would recommend the Kitchen Studio without hesitation.

The Kitchen Studio of Glen Ellyn designed and remodeled a beautiful kitchen and bath in my 93 year old home. As a senior citizen I decided to "live in place" and incorporate safety features in my kitchen and bath. The Kitchen Studio of Glen Ellyn fulfilled my requests.

The Kitchen studio was highly professional and a joy to work with. They were very receptive to any concerns and always came right back out if we had any problem. I cannot say enough about how great it was working with them. The cost was a little bit high for the project, but sometimes that's what you have to pay to rely on some else to do everything for you. That's what Susan did; she took care of everything for us.

We had a fantastic experience working with the Kitchen Studio of Glen Ellyn. Their professionalism and quality of workmanship is a rare find. Their proposed schedule and budget was very accurate. We were not "nickel and dimed" as things came up. We have a good amount of experience with remodels and our experience with them was exceptional.
