It is very disappointing that there is a lack of communication with the nonroof related projects that were also damaged in the hail.

The service provided by TriStar was excellent. Matt and the crew were great in understanding what needed to be done to repair our roof with a quote that was right on target and completed on time. My wife and I have been very satisfied with the workmanship. Kira Lee at the office is top notch about making sure all the business details and insurance documentation is complete and finalized. TriStar is a local Denton company, we liked working with a group that knows our community.

I was blown away that they took a picture with a drone besides just getting on the roof. I was amazed that they know so much about roofs. They were so professional. It was the best experience I have ever had besides shooting a 62 in golf.

Clay and Kira went above and beyond when it comes to professional service. I have been kept up to date on my roofing repair progress, and they went out of their way to visit me periodically to personally let me know what they will do prior to fixing anything. I feel very fortunate to be their customer; and I hope to continue to do business with them for any of my housing problems! Thank you very much.
