The company that actually came out, did the work, and put the roof on were beyond fabulous. It was a mother and son company. The mother was highly professional. I didn't interact with the son, but he made sure that the crew did a good job. He was on top of them frequently, and I really appreciated that. The employees seemed happy, and if they seemed happy then it must be a great company.

They were good with all the work that they had to do. The only thing that I was concerned about was the type of paint they used. The house has semi gloss paint, and they repainted with flat paint. I had to have them come back and redo the painting with the semi gloss paint. Everything else that they did was OK.

I wouldn't use Truly Noble Services because they obviously don't have the quality people they think they do.
