No, I wouldn't use Window Nation again. They kept sending me emails, trying to get me to agree to another \$700 in costs I didn't ask for. The salesman Jason was terrible and a liar. After talking to him via phone about the issue, he said he'd take care of it. Right after that, I got an EMAIL from him asking me to sign the contract for the additional costs. Very shady company. I was VERY close to having my lawyer get involved to dissolve the contract.

As of a few weeks after the installation of the windows, I am very pleased with the whole process with Window Nation. From sales, communication, to installation. Every aspect was professionally done. A little pricey, but hopefully they have the long term longevity and reliability as claimed. At this point, couldn't be happier with the looks, quality, and ease of use, Highly recommended...

I was overall incredibly happy. The process was way easier than I thought it was going to be. I was prepared for a big mess, but there was no mess. My window seals are in perfect condition and my windows look amazing. They have made a difference in how my house looks from the outside. I know in the winter it will be more energy-efficient. I am happy with the way the project turned out.

I'm very happy with my windows so far. It's only been a couple months with them and I haven't experienced all weather conditions but they are a major improvement over what I had prior. The sales guy didn't jam his products down my throat and the installers were great to work with and talk to. I've been getting a lot of compliments on how nice my house looks. Very happy

My only complaint is the installer smoked while at my house. He was outside but the smell still entered the house. Also, he put a piece from the window on my bed.
