Nov 11, 2019

Advanced Roofing has been excellent to work with on both my 2012 and 2019 roof replacements. Tyler (project mgr.) is on top of things... but busy after hail storms (obviously). Just call him as needed and he'll take care of any questions or concerns. Both the crews I've had were professionals and definitely know what they are doing. Sherry in the office is awesome ... what else can I say. I highly recommend ART for any roofing projects!

★★★★★

Advanced Roofing Technologies is the best in the business! I've used them many times for roof replacements and repairs on a number of properties. They were able to fit me into a super tight window while selling a rental property right after a huge hail storm. I would highly recommend anyone who is looking for a local, reputable and reliable company that puts customer service first to give them a call.

Longmont, CO
Apr 19, 2019
★★★★★

ART was professional and easy to work with. The materials used are first rate. But the most important issue is the installation. The crew that worked on my house did an excellent job on the roof and they left my house almost spotless. I've had other roofs replaced and I can easily say this was by far the best experience in replacing shingles

Feb 14, 2019

They opted to keep something on our door, and it was up for a month and a half and nobody took it down. Jim said we should leave it up, but we don't know if anyone ever came and inspected the roof. That was the only bit we didn't know.

REVIEW

Jan 23, 2019

I was most satisfied with the whole process from the first call all the way to completion. Everything was done when it was expected to be done. They had great communication. We had a snow storm in the middle of it and it was communicated to us that we would have to be pushed back. It was all very well handled.

I've used Advanced Roofing Technologies for multiple investment properties. This time they went above and beyond for me. We had a tight window to get the roof replaced during a real estate transaction and they fit me into their schedule following a big hail storm. The roof was replaced in one day and when I came back you couldn't even tell they were there the yard was so clean! I will continue to use them for all my roofing needs and would highly recommend them to anyone looking for a local, reputable and reliable roofing company.
