AquaDuct is great. We have had past roofers and it gave us nothing but problems, but the roof AquaDuct gave us was done right the first time. They were prompt and helped us with the project immensely. We would definitely recommend them.

I admire the staff that runs the company; they were polite and considerate of me explaining things that I was upset with. We had some issues but I do understand that it was during hurricane season and they were overbooked.

AquaDuct Roofing & Gutters replaced my roof and gutters, which were damaged by a hail storm. I chose them based on recommendations from a friend, as well as how they handled the initial project estimate. I explored several other companies, but AquaDuct spent the most time on the estimate and were the most informative up front. Scott and Ryan are very easy-going. They were patient with my questions and made sure I understood how the project would proceed and how the insurance process would work. Overall, I am very pleased with the end result, and would definitely recommend them to others.

★★★★★

Scott (owner/operator) did an amazing job completing our ENTIRE insurance claim. He coordinated the efforts of not only the roof but also window repairs, water damage repair (drywall/paint) and even corrected an issue in the attic. The claim process was difficult to navigate but Scott was very professional as we worked through it. We did have some issues with workmanship from one of his sub-contractors - but he got them right out and corrected it immediately.

There is no stone (or in this case, shingle) unturned when all is said and done. Scott will sit on the roof ridge with you and answer all your questions.

AquaDuct did a good job on my roof and gutters. When a home inspection revealed a 5/8" discrepancy in the gutter slope, they came out and adjusted it for no charge, which, to me, is an indication of an effort for total customer satisfaction
