Paul and his team have now completed three projects for us at our house in Cape Coral, each project with its own challenges. We successfully worked out each challenge with the team and I would certainly recommend Beattie to others looking to make enhancements to their home.

The true measure of satisfaction is "would you bring your contractor back in the next time you plan to do more home improvement work?" This is the third time we have worked with Beattie Development. Their quality and attention to detail has made for a top notch experience each time we entrusted our home to them.
